The miracle that changed the world forever. Uplifting and historically accurate, *FATIMA*, the movie, depicts a trial of faith that unfolds at the apex of World War I, when secrets were revealed to three courageous Portuguese children through a series of apparitions, while their doubting family and aggressive government officials try to silence them. The movie includes a scene of the Sun dancing as it was described by the 3 children and the 70,000 observers there that day.
